This book argues that the relationship between the European bourgeoisie, which has emerged as a distinct social group in the early modern period, and the Jews in Europe was never as harmonious as conventional historiography sometimes maintains. The bourgeoisie represented a class which had not been socially homogeneous in early modern Europe. All classes and regions lived in and maintained political and social structures defined by their own interests and values. To some extent, these interests were quite similar to those of the Jews. The bourgeoisie in Germany, France, and the Low Countries maintained a notably more pronounced anti-Jewish public culture than did their counterparts in England, Scotland, and the British Isles. The Dutch Revolution of 1672–74 was devastating to the privileged class of Dutch Jews, who had anticipated a revolutionary future under the guidance of the United East India Company. Moreover, the somewhat more open, democratic structure of English society during the 17th century prompted a more intense ferment and provided fertile soil for the growth of anti-Judaism. The turmoil of the French Revolution, coupled with the crisis of international trade brought about by the Napoleonic wars, eventually led to the rapid and unprecedented growth of the 'French and German Jews' in the early 19th century. Their consciousness was shaped by the revolutionary model of society and an exaggerated public image of Jews. The bourgeoisie found the Jews difficult to handle because of their resistance to rationalization and their rejection of a change in public outlook. The bourgeoisie had initially been an important patron of the Jewish Enlightenment, but when the latter threatened the bourgeoisie's status at home, this relationship gradually changed. By the first half of the 19th century, Christian fundamentalism had in some cases simply replaced Enlightenment thought within the bourgeoisie. This radicalization had resulted in the opening of the 'shopfronts' f678ea9f9e
